WIQUEST NAMED #1 ULTRAWIDEBAND VENDOR BY ABI RESEARCH

Independent Analysis Based on Innovation and Implementation

ALLEN, Texas – July 16, 2008 – WiQuest Communications, Inc., the worldwide leader in complete WiMedia-based standard ultrawideband solutions, today announced it has captured the number one position among ultrawideband vendors based on a July 2008 Vendor Matrix by ABI Research. This Vendor Matrix analyzed 15 WiMedia-based and proprietary UWB companies comparing each company on innovation and implementation. WiQuest came out on top.

“Each company was evaluated based on advancements in 12 key areas including market share, key customer announcements, certification, complete solution, data rates, and other areas,” said Doug McEuen, senior analyst at ABI Research. “Upon evaluation of these specific areas, vendors were assigned scores, which determined the rankings of each vendor in the areas of innovation and implementation.”

“WiQuest is honored to be acknowledged as the global leader in ultrawideband; offering customers a complete product solution,” commented Wayne Daniel, director of strategic marketing at WiQuest. “With this momentum in product implementation and the continual introduction of innovative new products and technology, WiQuest is extremely well-positioned for sustained success,” he added. “Our customers have recognized this value delivered by WiQuest and continue to commit their next generation products to us.”

Complete results can be found in ABI’s latest UWB Vendor Matrix at http://www.abiresearch.com/products/vendor_matrix/Ultra_Wideband_IC_Vendor_Matrix.
